linea.™

DH-360, DH-460 & DH-650 ENCAPSULATION SYSTEMS

The new Linea™ is a continuous roll fed system that allows non-stop lamination for demanding jobs.

Design

The Linea has been designed for jobs that just can't wait. As well as being able to cope with long, continuous runs, its highly versatile and ideal for laminating different size media such as long banners or odd shaped pieces.

The range has been carefully designed with well thought out features making it easy to use and highly efficient.

Features

- Can be used as a desktop or free standing system
- Solidly built from all-metal components
- Large diameter rollers to withstand the rigours of continuous operation
- Available in 3 sizes from A3 - A1/11x17" - 23x33"
