DS Satin Photo Paper 190gsm

Est. 1991

DESIGNSUPPLY 
supporting creativity

Overview:

This is our lighter-weight satin paper, offering a stunning print result with a little more flexibility than typical papers. Finished with a superior resin coating, this paper has been designed to be non-reflective, and also offers a higher print resolution than standard papers. Great for when quality is key.

- Can be hot or cold laminated for extra protection and durability
- High-white satin finish
- Everyday PE-coated inkjet photo paper
- Good ink-absorption for quick drying properties
- Wide colour gamut
- High resolution printing at the best quality available on inkjet printers
- Microporous coating provides high colour clarity and deep, solid blacks
- Non-reflective - images can be seen clearly from a wider angle

Applications:

A great choice for all photographic reproduction, exhibitions, posters, retail displays.

Compatibility:

This product has been tested for use with the following ink technologies;

Aqueous Dye
Aqueous Pigmented

Usage and durability:

This product has been designed for all photographic reproduction printing
