# SUMMARY

1. [SELECTING A TEMPLATE](#)
2. [SELECTING PAPER OPTIONS](#)
3. [EDITING TEXT](#)
4. [ADDING CLIPART](#)
5. [PRINTING](#)

**Canon**

# 1. SELECTING A TEMPLATE

## STEP 1

After opening the software, click **[Select Template]** in the task area.

## STEP 2

To view templates ,click **[Category]** then **[Signs & Notice]**

## STEP 3

Click on the bottom right icon to download the template.

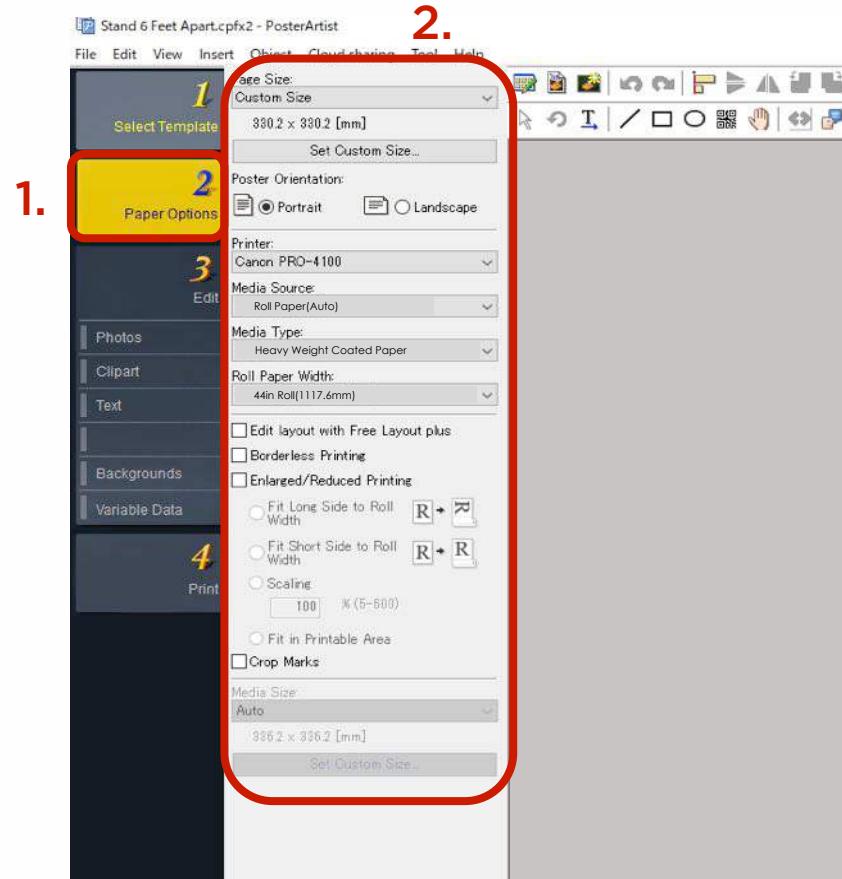

(new templates are marked with the "NEW" icon)

## STEP 4

Select the template from the thumbnails, and then double-click on it.

You can also select a template by dragging and dropping it from **[Category]** to the poster design area directly.

## 2. SELECTING PAPER OPTIONS

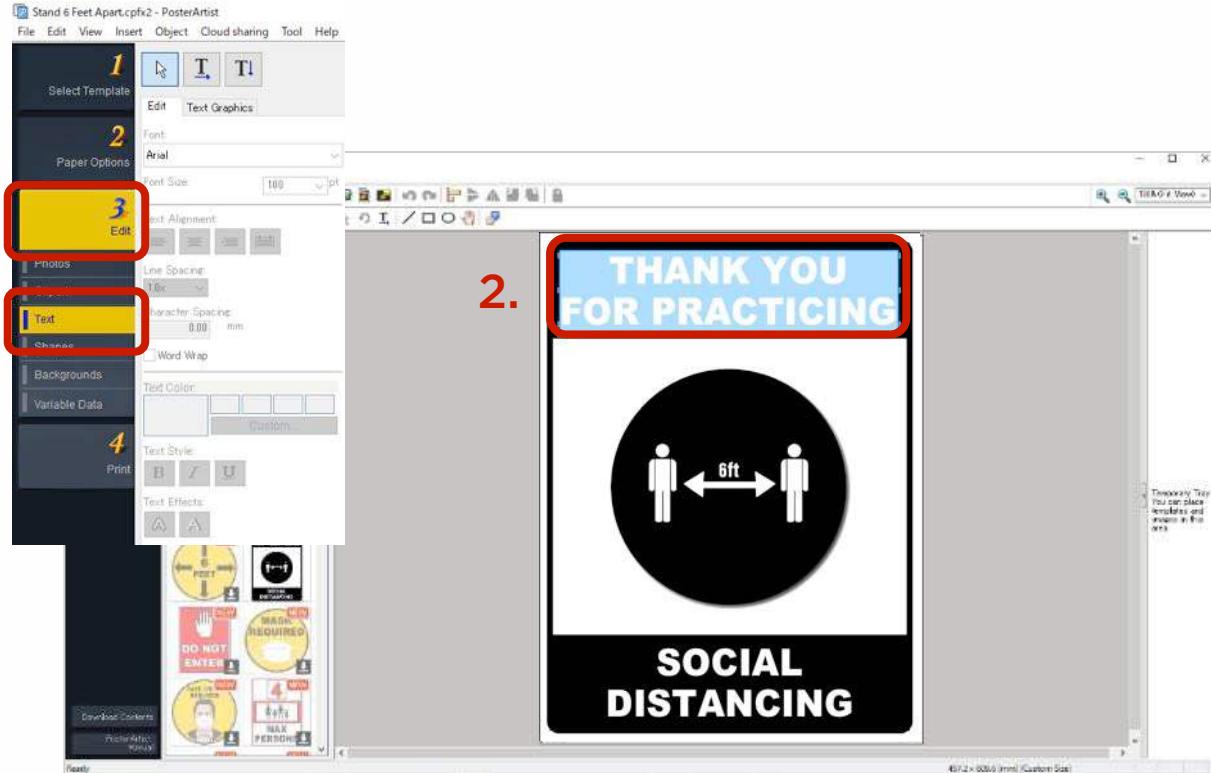

### STEP 1

Click **[Paper Options]** in the task area.

### STEP 2

Specify **[Page Size]**, **[Poster Orientation]**, the printer to use, and other settings.

### 3. EDITING TEXT

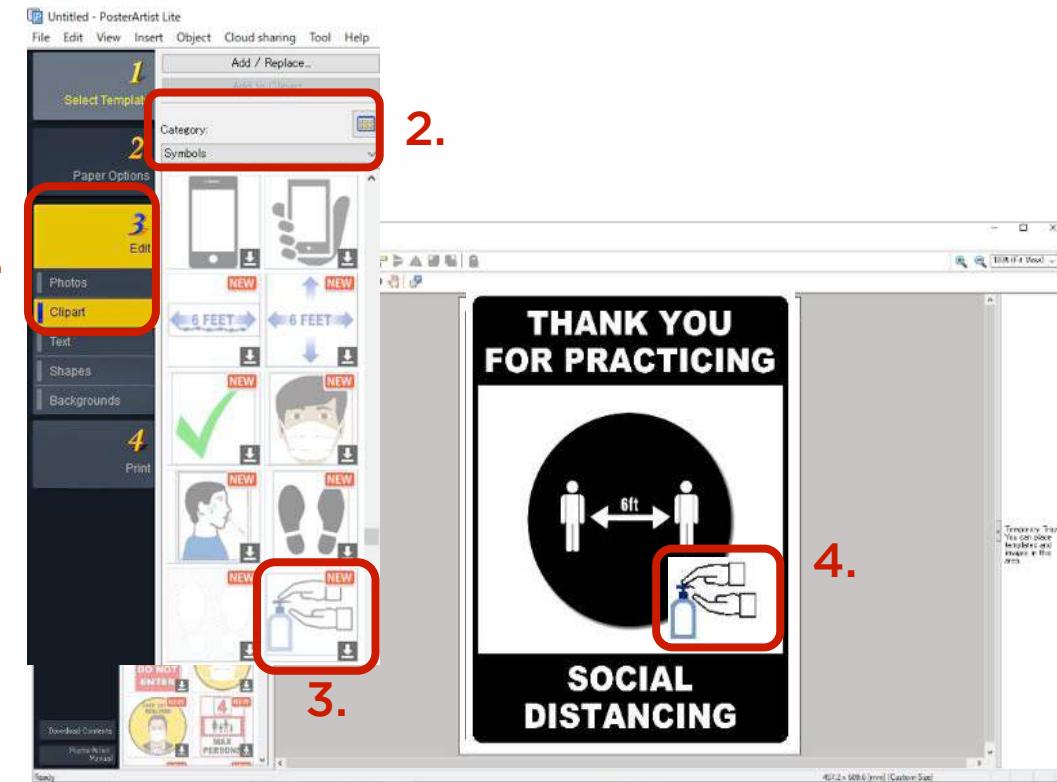

#### STEP 1

Click **[Edit]** in the task area, and the click **[Text]**.

#### STEP 2

Double-click text and edit it. You can also add text to posters. Edit the added text as needed.

# 4. ADDING CLIPART

## STEP 1

Click **[Edit]** in the task area, and then click **[Clipart]**.

## STEP 2

To view clipart, click **[Category]** then **[Symbol]**.

## STEP 3

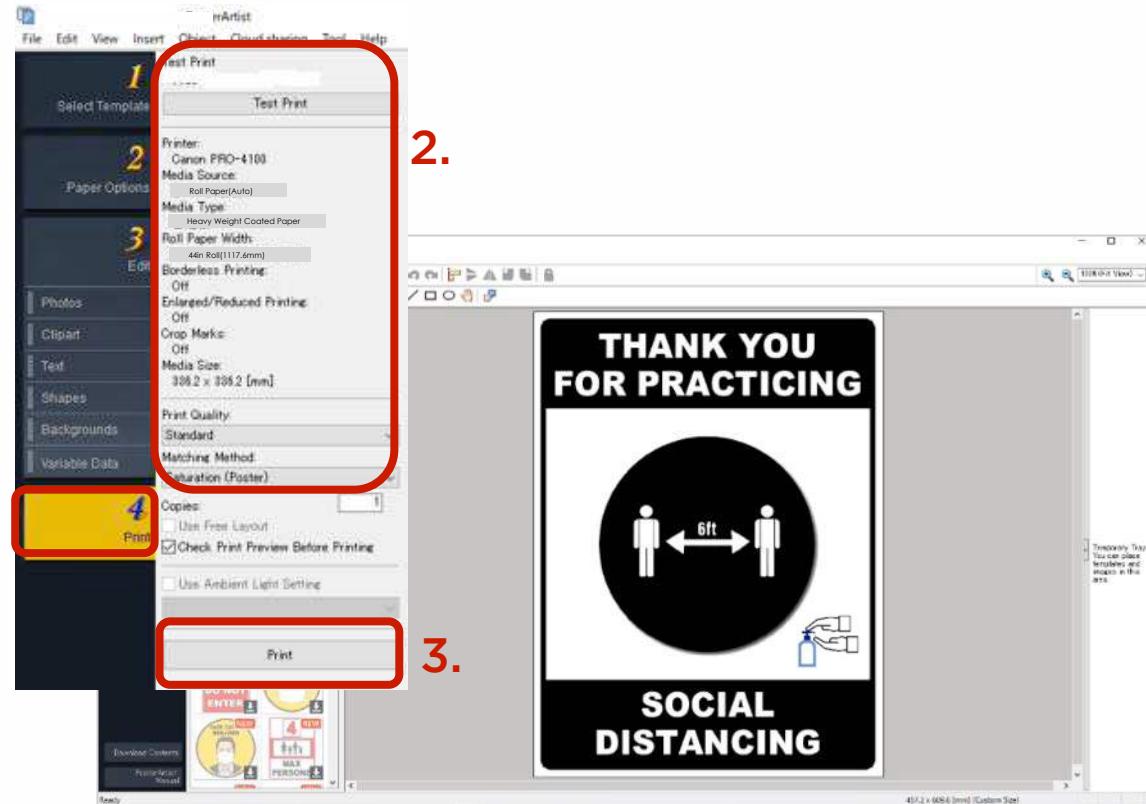

Click on the bottom right icon to download the clipart.  
(new cliparts are marked with the "NEW" icon)

## STEP 4

Select the clipart from the thumbnails, and then double-click on it.

You can also select a clipart by dragging and dropping it from **[Category]** to the poster design area directly.

# 5. PRINTING

## STEP 1

Click **[Print]** in the task area.

## STEP 2

Specify **[Print Quality]**, **[Matching Method]**, **[Copies]**, and other settings.

## STEP 3
