imagePROGRAF GP (7-COLOUR) series

PRECISION PALETTE CRAFTING BRILLIANCE

MEET THE imagePROGRAF GP-2600S/4600S/6600S

The sustainable imagePROGRAF GP (7-colour) series – where accuracy meets vibrancy. The printer brings a revolution in printing premium posters for chain retail, franchised stores, print service providers and entry-level photos in local print shops, offering sustained productivity without compromising on image quality and longevity.

As a PANTONE™¹ calibrated printer, the series goes beyond ink with a higher PANTONE™ coverage² across almost the entire spectrum. Colours are produced with precision, vital for on-brand corporate materials, thanks to the new LUCIA PRO II ink³ with its innovative orange ink.

SPECIFICATIONS:

- GP-2600S: 24"; GP-4600S: 44"; GP-6600S: 60"
- 7-colour LUCIA PRO II ink³ (Matte Black, Photo Black, Cyan, Magenta, Yellow, Grey, Orange)
- Sales ink: 700ml / 330ml / 160ml
- Maximum print resolution: 2400 x 1200 dpi

YOUR BENEFITS WITH THE imagePROGRAF GP (7-COLOUR) series

PROFESSIONAL IMAGE QUALITY

- ▶ Wide PANTONE™ coverage² with high colour precision for producing corporate colours accurately
- ▶ The LUCIA PRO II ink set³ and new orange ink enables accurate, vibrant and attractive colours, adding depths to photos and premium posters

BOOSTED PRODUCTIVITY

- ▶ Automatic media loading with auto detection of media type and remaining quantity
- ▶ Free size borderless printing, perfect for printing premium posters
- ▶ Multifunctional dual rolls system allows the lower roll unit to act as a feeder, or load different media types
- ▶ Enhanced productivity with mirrored ink layout
- ▶ Intuitive functionality, including interior LED light and roll media size indicator

INCREASED DURABILITY

- ▶ Preserve prints for 200 years⁴ with improved light fastness
- ▶ Enhance robustness with improved scratch resistance for easy handling of precious prints

UNPARALLELED RELIABILITY AND EASY MEDIA HANDLING

- ▶ Reliable printing with auto print head alignment to prevent image deterioration
- ▶ Media loading time is reduced by 40% with simplified settings
- ▶ Custom media registration is easier with an enhanced process using the Media Configuration Tool

IMPROVED SUSTAINABILITY

- ▶ EPEAT Gold rated⁵
- ▶ Reduced expanded polystyrene (EPS)⁶ in packaging

1. 5 out of 7 inks are newly developed. The matte black and orange inks are used by the imagePROGRAF GP-2000/4000.

2. PANTONE™ is a trademark or registered trademark of Pantone LLC.

3. PANTONE FORMULA GUIDE Solid Coated colour gamut coverage rate is 96% for GP-6600S/4600S/2600S, when using Premium Semi-Glossy Paper 2 with imagePROGRAF printer driver at [High] [Color Correction Off]. Coverage rate is 82% when using Heavyweight Coated Paper HG with imagePROGRAF printer driver at [High] [Color Correction Off].

4. When using Canon Heavyweight Coated Paper HG 145gsm for GP series. Predicted value calculated in accordance with the indoor light resistance test method and life evaluation criteria of the digital colour photographic print image preservation evaluation method (JEITA CP-3901B) published by JEITA (Japan Electronics and Information Technology Industries Association).

5. EPEAT Gold registered in the U.S.

6. GP-2600S is free from polystyrene in packaging, the others shows an 89.5% reduction in polystyrene (not including the second roll unit).
